

Subject Specific Assessment Plan – Summer 1

Subject:	
Internal Assessment 1 Details:	Week beginning 22/3/21 Biology, Chemistry and Physics paper 1 assessments. We will be using the 2020 paper as it is unseen and on a password protected site. <u>(Please note that we have completed the course and have spent lockdown revising some paper 1 content which has continued since students have returned).</u>
Internal Assessment 2 Details:	Week beginning 3/5/21 Biology, Chemistry and Physics paper 2 assessments. We will be using the 2020 paper as it is unseen and on a password protected site. <u>(Please see class specific plans on the next slide)</u>
Internal Assessment 3 Details (if applicable):	TBC
Details of any other evidence based activity e.g. coursework etc (if applicable):	We will consider the exam board material that is due to be released. If necessary we will use these assessments as further evidence to support our findings from our end of topic tests (which are consistent with all other schools in the Trust).

Science Specific Assessment Plan – Summer 1

Week beginning	Task to be completed – Groups A,D and F	Task to be completed – Groups B, C and E
22.3.21	Full assessment on Paper 1 topics for biology, chemistry and physics – 2020 paper as it is unseen and on the password protected website.	
12.4.21	Teaching of the topic on waves which was covered during lockdown followed by the end of topic test.	Teaching of the topic on rate and extent of chemical change which was covered during lockdown followed by the end of topic test.
19.4.21	Teaching of the topic on magnets which was covered during lockdown followed by the end of topic test.	Teaching of the topic on Chemical analysis which was covered during lockdown followed by the end of topic test.
26.4.21	Teaching of the topic on Ecology which was covered during lockdown followed by the end of topic test.	Teaching of the topic on Ecology waves which was covered during lockdown followed by the end of topic test.
3.5.21	Full assessment on Paper 2 topics for biology, chemistry and physics – 2020 paper as it is unseen and on the password protected website.
