Dear Parent/Carer

**RE: Year 11 Subject Written Reports and Summer 2021 Grading Process Update**

Please find enclosed within this package your child's Subject Written Report from Spring Term 1 as well as a guide for students / parents and carers on this summer's 2021 grading process for Year 11. It is really important that both of these documents are read and understood so that your child can continue to progress throughout their remaining time at the academy.

Each subject report has been written by your child's individual teacher and takes into account all learning and progress from September 2020 up until January 2021.

For each individual subject, staff have included 3 headings,

1. "Subject Strengths" e.g. what your child is doing well at,
2. "Target Knowledge" e.g. what knowledge your child needs to acquire to further develop and
3. "Target Skills" e.g. what actions your child needs to take in the future to progress onto their next step in learning.

It is our intention that these Subject Written Reports recognise the great work that individual students have completed to date within their subjects and will provide students with a solid starting point for learning and progression for the remainder of their academic year to support them in realising their full potential.

The guide for students/parents and carers is an overview of expectations and detail for the process of awarding grades this academic year and is intended to provide a clear framework of what is going to happen during this process and how this process can be supported.

I would like to take this opportunity to thank you for your ongoing support during these challenging times. Please do not hesitate to contact us if you have any questions or require any further assistance.

Yours faithfully

Mr K Dyke  
Assistant Principal
