

ADM has been present in the UK for over a century and continues to operate sites across the country. This includes one of the UK's largest import and distribution businesses of non-grain feed ingredients, a crop origination and marketing business, storage, freight, logistics and financial services and seven flour mills. ADM's Oilseeds business unit is further supported by two oil refineries, a pulse and seed processing plant, as well as a packaging facility for edible oils and fats. In addition, the company operates a probiotic manufacturing facility in Somerset.

At ADM, we work closely with trade associations, growers, governments, non-government organizations (NGOs). We form a partnership with the communities in which we operate in order to improve the quality and availability of crops in the global supply chain, as well as benefiting the lives of farmers and the communities that grow such crops.

In the UK, ADM is an active member of trade associations including; The Seed Crushers and Oil Processors Association (SCOPA), the CIPS Sustainability Index (CSI), the National Edible Oil Distributors' Association (NEODA), the EU Vegetable Oil and Protein Meal Industry Association (FEDIOL), the Health Food Manufacturers Association (HFMA) and Leatherhead Food Research. ADM has also passed audits by the Medicines & Healthcare Regulatory Agency (MHRA) and the Veterinary Medicines Authority (VMD) and carries Assured Food Standards accreditation.

ADM Cares is our corporate social responsibility program, which aligns the company's corporate giving with its business strategies and sustainability objectives. ADM works to sustain and strengthen its commitment to communities where ADM colleagues work and live by directing funding to initiatives and organizations that are driving meaningful social, economic and environmental progress. In the UK, ADM supports a number of local and national charities, including various charities focusing on STEM education, supporting the farming communities and mental health awareness.

About ADM:

As the world's population grows, so does demand for quality foods, feed ingredients for livestock, industrial products and alternative fuels. As one of the world's leading agricultural processors, ADM plays a pivotal role in meeting all of these needs. We produce the food ingredients, animal feeds and feed ingredients, biofuels and other products that manufacturers around the world use to provide a better life to millions of people around the globe. With approximately 40,000 employees serving customers in nearly 200 countries, a global value chain that includes 450 crop procurement locations, 330 food and feed ingredient manufacturing facilities, 62 innovation centers and the world's premier crop transportation network, we connect the harvest to the home, making products for food, animal feed, industrial and energy uses.
